Disclaimer

The allocated numbering scheme/plot to postal which has been allocated as per the development plan attached, this has been checked and verified by Council Officers, the developer has confirmed that the plot to postal and attached plan are the most up to date and accurate at the time of application.

Any changes made to the development which alters the development or results in an illogical numbering scheme following initial address allocation will be chargeable, costs incurred by the developer.

Please note that any numbering scheme and plot to postal allocated by the Council **must** be adhered to as this is the legal registered address allocation and if necessary a re-numbering will be implemented. All costs to be incurred by the developer, including changes to Utilities and Land Registry addresses where the property address has already been registered.

The developer should be mindful that any additional properties, merge of plots, change to development that will render the allocated numbering scheme illogical or extension of road layout will result in re-numbering, therefore the developer must contact snn@eden.gov.uk to register any change as per the Council's obligation to allocate property numbers and name streets/properties.

The UPRN (Unique Property Reference Number) is the number by which the property address is linked in the national address database and the Council's address database. This number is generated when the address is added into the Council's address database. It is this number which

will be used by internal Council departments, Government agencies, Land Registry and many other service providers to reference and link the address in their own external databases to service requests.
